DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 3, 4, 8, 10, 11, 15, 16, 18, 19 and 23 – 27, drawn to a container, classified in class 220, subclass 23.9.
 - II. Claims 12, and 13, drawn to a method for containing an explosion, classified in class 86, subclass 50.
 - III. Claims 21 and 22, drawn to a method of manufacturing a container, classified in class 439, subclass 52.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II and III are related as process of making and process of using the product. The use as claimed cannot be practiced with a materially different product. Since the product is not allowable, restriction is proper between said method of making and method of using. The product claim will be examined along with the elected invention (MPEP § 806.05(i)).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
